

LODE PARISH COUNCIL

Important notice to all users of the Fassage Hall, Play Area and Allotment Holders

The planned groundworks on the Fassage Green and Recreation Ground are planned to begin in the week commencing 5 July for a period of 3 to 4 weeks. Please note the following points:

- The contractors will have a compound at the far end of the Cemetery Car Park for the duration of the works. Please ensure that vehicles using the Car Park do not obstruct the access to and from the compound**
- The contractors will take all steps to maintain a safe working environment but please take extra care when using the lane from the Car Park to the Fassage Hall. Keep all children and dogs under close control, and well away from the contractors' machinery and equipment**
- There will be some days when equipment and/or materials are being delivered when the access road to the Car Park will have to be closed: a notice will be displayed at the High Street end of the access road to warn users. Please arrange to park elsewhere on these occasions**

Lode Parish Council apologises for any inconvenience while these works are taking place. The works, once completed, will offer a substantially improved environment to benefit the whole community
